By Valerie Hall

This little Transsexual with an hourglass figure with my shoulder length chestnut brown hair with my black finger and toe nails is out and about and is really horny. I am in my 20s and I wear a C cup bra as my rear vagina wants to be fucked by a big cock badly as much as possible. I very sexy tan lines and I have with small golden rings in my nipples of my tits as in the past I had had a very small rope in them. I totally love being tied up in bondage fucked and sucked as I love my kinky side of my life. I have golden hooped earrings in my ears and with a five and one half inch thick throbbing hard cock that spews globs of cum as when I jack myself off I eat my own cum because eating cum is the best part of having orgasms. I am like always very horny and in the mood for sex and when I cum I always enjoy eating my own semen and anybody else's cum too because I love the taste plus it is full of protein. It was an early morning as I was out walking on my daily morning walk on a trail as I was wearing my sweat pants over my panties, sweat shirt over my bra, a hoodie and my ladies lace up tennis shoes on this cold foggy morning. About daylight after walking for a short distance I met a great big muscular skin head stranger that was walking at the walking trail. As we started walking together I turned around and started walking with him as he had huge muscles. He was wearing jeans with a sweat shirt along with a hoodie on

this cool morning. As I walked beside of him we just met as I struck up a conversation with me saying, "Nine out of ten men who try Camels prefer women" as we both starting laughing as that broke the ice as we both were smiling and I k new what I wanted for breakfast. We were having a very good conversation as we walked and talked about the weather sports politics as he asked me, "Maybe we could get out of here and go have a good little rendezvous." I asked the man, "Do you want come over to my house to have a really good time?" We both agreed on that as we headed for our vehicles. We got in our cars as he followed me to my place and as soon as we got to my home and were on the inside of my house, I asked him "Do you want some coffee Tea or Me?" The very nice man said he would take some coffee as I made some coffee and I poured him a cup of coffee as I had a cup for myself. We sat down in my living room and we started kissing each other passionately on our lips as I really didn't know if he knew if I was as transsexual or not but we were making out. We were kissing as our tongues were dancing passionately inside both of our mouths. The both of us was breathing very rapidly as I reached down and was feeling of his big hard cock that was bulging through his jeans as my own cock was already as hard as a rock. We both were kissing and fondling each other as our private parts as he was feeling of my breast as we were getting in the mood to have some really good sexual intercourse. He stood up as my surprise was the size of his big hard cock bulging out of it in his jeans. We both stood up kissing as we were so turned on that we

both got out of our clothes as we got naked in a hurry. I nibbled on his ear lobe stuck my tongue in his ear as he was sucking my erect nipples. I took his warm cock in my hand that was oozing pre cum out of his pee hole as I bent down and licked off of the tip of his cock as I put the monster head of his warm meaty and tasty cock in my mouth. I took his huge cock with the purple veins sticking out of it as I started sucking on the head of it making sucking and slurping sounds. I loved the taste of his salty pre cum or cum period on my sandpapered tongue as I stroked his cock with my fist making a slurping sound as I was looking into his eyes as I was sucking his cock. I fondled his balls with my fingers while sucking them into my mouth one at a time. In the heat of the moment he found out that I was a transsexual as he was stroking my erect hard cock and he also was fondling my balls with his fingers. It feels so good having someone stroke your hard cock with their hand as it is a really big turn on to me. I stopped kissing him and said to the very nice man "I we need to go to the bedroom where we can do what we want to." I told him that "I always enjoy doing something kind of kinky as I opened a dresser drawer got out two pairs of chrome metal handcuffs with a black blind fold for my eyes. I laid down on my back naked on the bed as he put the cuffs on by wrists and ankles as he tightened them good and tight. He put my blind fold on my eyes as I couldn't move my hands or legs or my arms was handcuffed and so were my ankles with my groin. The sexual electricity was awesome as he held my knees up to my shoulders as I had some fear with me being

totally blindfolded naked, bound and aroused in bondage which made my cock ever harder. He secured me with me lying on my back with my hands were above my head as I held onto my brass bed. I was a bit frightened but I was worth taking a chance and was wondering what if this guy would harm me or not but I love to gamble as I was bound as his prisoner. I felt frightened and helpless with me struggling with the tight cuffs was kind of a kinky situation with me being totally bound and blindfolded. I was filled with fear of what was going to happen next with sensational electricity and fear as I was in bound was going to be fucked one way or another. I was on my back as my cock was so hard as he took the head of his cock as he bent down as he put his knees on my shoulders as he put the big juicy head of his big warm and tasty cock into my awaiting mouth as I was savoring the awesome succulent juicy taste of his warm meaty cock with the salty pre cum juices that was oozing out of his pee hole onto my tongue. I loved the salty taste of his hard cock with its pre cum that I love so very much as I swallowed it all down. As I had my mouth capped around the warm head of his juicy cock with my lips with me making a sucking and slurping noises around the head of his warm tasty meat we both were sexually elated to the max. I was using my tongue underneath and around the head of his juicy throbbing cock from side to side underneath the tip of his cock. I was also was flicking his pee hole with my tongue as the succulent juices that oozed out of his cock in my mouth. I could feel his heartbeat with his throbbing cock in my mouth with my lips from the bulging

veins as my mouth was capped around the head of his cock. I was really enjoying sucking the salty pre cum out the tip of his warm hard cock as my own cock was rock hard and was aching for an orgasm. I continued to suck on his organ as he would pull it away from my mouth as he was about to cum teasing me because I was enjoying sucking his cock so much as I started begging him to fuck me. I sucked on and licked his balls and I licked up and down his thighs and I even licked around his ass hole. He slowly shoved his cock down my throat as I was gasping for air as he said to me in anger "Beg for that cock you slutty bitch, I beg you to suck this cock. Beg for this cock you slutty little whore." I did some begging pleading to him as I said to him "Please master may I have your big tasty cock in my mouth? May I please suck it master please? Master I want to dump your load in my mouth." I could hear him as he got out some KY Jell put a condom on that monster hard organ as he then lubed up two of his fingers and lubed up the inside and outside of my starving and awaiting ass hole. It felt so good with him wiggling his fingers inside of my tight rear anal pussy with that cold lube. He said to me "No more cock for your mouth you slutty bitch. You have been a bad girl and now I am going to punish you by fucking you in your asshole." He slowly started to insert his big head of his cock inside of my asshole as it almost took my breath away as the head of his meat was stretching the spinster nerves of my anal walls. When he had that big head of that hard cock into my ass as I was so turned on that I was elated and I wanted more. As he pushed his cock inside of me it was

stretching my anal muscles with his meaty cock as he pushed it in as it almost took my breath away from me when he finally got that entire monster deep inside of me. His big hard thick cock that filled me up with his warm meat deep inside of me as it totally filled up my anal walls. I was almost in heaven as he slowly started to fuck me with my hands and legs above my head as his big meaty cock making a squishing sound in me as he was holding my legs up and was fucking my tight ass. His cock was stretching the inside of my ass with him holding my legs with his hands as the meaty cock was making a squishing sound of my anal spinder nerves was making me crazy with lust. His monster of a cock was sending trillions of sensations all through my body and my own balls cock and all through my body as he was stroking my asshole as I was being fucked really fast. He was hammering my asshole so hard occasionally slapping the cheeks of my ass really hard with his hand several times as my ass was stinging to in which he was really turning me on. I was so super turned on as his balls slapped the back side of my ass as his warm sweat was dripping off of his forehead upon my chest and stomach. There is no kind of feeling on this earth to describe it when you are getting a good ass fucking with it being a wonderful animalistic sexually elated high that you'll never know or experience until you try it. I was so super turned on with me being blind folded in the darkness, naked and helpless and feeling super elated aroused horny and was in a sexual heavenly state as I was a seductive prisoner as I was so high on our sexual lust.

Here I am on my back with my hands cuffed tightly above my head with my ankles on his shoulders with me being super fucked as he was hammering my ass like it was chop meat and I was loving getting fucked with that big cock stroking the inside of my ass that was making me crazy. As we continued to fuck I was breathing faster and faster as my heart races as this dirty little sissy whore that I am is aroused to the max. My own cock is hard as hard as a brick as his balls are slapping my ass turning me on. I am in luck as I am being anally reamed out in my tight ass with the billions of anal nerves are sending me almost in to a sexual outer space orbit. His huge seven inch cock was stroking the enter walls of me as he was as hard as a rock as it was stretching my anal walls with him fucking me as I was totally loving it. He continued to fucking my anal hole as I was so turned on that I lost track of time. I am in a sexual elated heavenly state as he was moving his cock around and around inside of my anal walls inside and out driving me crazy as I loved being hammered with his monster cock inside of me. I lost control as my breathing pace got faster as my heart was pounding as my balls tighten and as I lost control of everything including my thoughts. My stomach muscles clenched as I grunted out loud as the head of my cock was twitching as I said "Oh my god Master I'm Cumming, oh yes oh yes, oh my god oh yes" as I dumped my own warm loads of my own cum on my chest with the warm streams of my own cum all over me. I was having a multiple orgasm with me shooting off time after time. He never even slowed down as he continued to fuck me in

I continued to shoot off time after time over and over as this stranger continues to fuck me harder and harder. He grabbed me by my throat and started choking me as he almost made me pass out which really made my orgasm even better. He fucked me so hard stroking my ass as my cock continued to spew streams my own of globs of warm cum out of it as I moaned and groaned giggled laughed and shook. He was fucking me so hard with his thighs sleeping my ass as we were in heaven His balls tightened as he grunted out loud as he pulled his hard cock out of my ass pulled the condom off and put the head of his warm cock into my mouth as he said to me "Oh yes, take this load of cum you fucking bitch. You know you want it" as he started to shoot off his warm globs of his warm cum in my awaiting mouth and down my throat." He grunted out loud saying "Take this cum you bitch, take that cock take it and suck it. Suck that load of cum down you dirty little whore." His warm cock shot its warm loads of cum in my mouth and down my throat as I did as instructed and I swallowed it all down. I had my mouth capped around the head of his cock sucking as hard as I could the head of throbbing his warm cock swallowing down his creamy load drinking it all the way down. My tongue and was flicking it underneath the head of his cock from side to side and I was flicking his pee hole as his warm cum was shooting out of the tip of his cock into my mouth as it was tasting so super good that I had his load of cum swallowing it all down. After he stopped Cumming he got

We both went to the bathroom and took a shower together with us kissing romantically as he got dressed and kissed me good bye. I was dazed thinking about what had just happened as I forgot to ask the gentleman's name. Oh well maybe next time.
